REMARKS

Claims 1-18 are allowed, however, several drawing and specification objections are identified in the Office Action.

With regard to the drawing objection concerning the numbering of the sheets to correspond to the views, Applicant has grouped the views on consecutive drawing sheets.

The drawing objection regarding Figure 11 has also been addressed. In general, Figures 1-7 and 11 show the same embodiment and thus, the same reference numerals are used to described the various components. Thus, Figure 11 has been corrected to reflect reference numbers consistent with Figures 1-7. The remaining figures were corrected in the prior response. In Figure 8, the reference numerals were indexed by 100. In Figure 9, the reference numerals were indexed by 200. In Figure 10, the reference numerals were indexed by 300 and in Figure 12, the reference numerals were indexed by 400. Thus, the drawing objection regarding Figure 11 should be overcome.

With regard to the drawing objections set forth in paragraphs 2(c) and 2(d) of the Office Action concerning Figure 7D, the specification has been amended at paragraphs [0050] and [0051] to identify what is shown in Figure 7D. No new matter has been added. The specification at paragraphs [0050] and [0051] describe radii R1', R2', R3', R4' and R5'. Further, R5' and M₂₃ are shown in Figure 7D. Accordingly, the corrections should overcome the objections in paragraphs 2(c) and 2(d), and the objection concerning M₂₃ at paragraph 4 of the Office Action.

Having overcome all of the objections set forth in the Office Action mailed September 7, 2005, the Applicant respectfully submits that the application and claims 1-18 are in a condition for allowance. The Examiner is invited to telephone the Applicant's undersigned attorney at (248) 223-9500 if any unresolved matters remain.

Respectfully submitted,

ARTZ & ARTZ, P.C.
